SITE: J & W Pallet  
BREAK: 10/18  
OTHER: ✓

Mr. Cocke,

Please submit a FOIA request by faxing it to Kindra Callahan, FOIA Officer, at (404)562 - 8054. Tell her that I have the file and that will expedite things. Include the name of the site (J & W Pallet and Drum Site) and the EPA ID no. GAD984310797. Ask for a copy of the Preliminary Assessment Report. You may also want to ask for a copy of the Removal Action report, although I'm not sure that there is a final report on that yet. Those are the only "corrective action" reports that we would have in the Superfund program.

You will also want to speak with Mr. Tim Cash of EPD's HSRA Program regarding the detection of certain hazardous constituents in the soil and groundwater to determine if notification to that program is required.

Thanks,

Carolyn Callihan

Subject 1121 Allene

Hey All-

Thanks for getting going again on 1121. To get things moving again forward on my end, I am going to need a copy of the NFRAP paperwork and the corrective action report for Robert Brawner, my environmental consultant, so that he can initiate and complete things with the Georgia EPD.

I hope this finds you well.

BC

W. Byron Cocke
